### V-Rod Mid Controls Kit

Harley-Davidson® built a wonderful bike when they developed the V-Rod. Kosman Specialties has designed and built a mid-controls conversion kit for V-Rod owners who desire a different riding position. This is a must for drag racing or other types of sport riding.

This is a complete, bolt-on kit supplied with all necessary hardware and instructions. This kit will not fit with stock exhaust system, but will fit with either Vance & Hines or Screaming Eagle exhausts.

Aluminum parts are machined from aircraft grade aluminum alloy. Fabricated alloy steel parts are heliarc welded, and silver powder-coated.

MSRP for the complete kit is \$445
